

FULTON Single Speed Winches

These winches feature efficient gear ratios, full-length drum bearings, oil impregnated shaft bushings and patented "Comfort Grip" handle for ease of cranking. All gears are high carbon steel for superb strength and long term durability. Stamped carbon steel frames provide rigidity for gear alignment and longer cycle life. Zinc finishes provide excellent corrosion resistance in all environments. All models are designed for use with rope or strap.

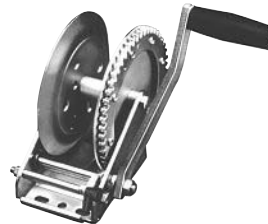

ORDER NO.	CAPACITY	RATCHET TYPE	DRUM STORAGE		PRICE
			ROPE	STRAP	
FUL T6000101	600 lbs.	One Way	36' x 1/4"	15' x 2"	\$34.89

FULTON Two Speed Winches

Make light work of heavy loads with Fulton two-speed winches. One fast speed for quick pull in, a second low speed for increased mechanical advantage. Shift lock design allows changing gears without moving the crank handle from shaft to shaft. Just lift the shift lock and slide the shaft in the desired gear position. Shift lock holds the shaft in gear. Neutral, free-wheel position, allows quick line pay out without spinning the handle. Ratchet pawl also has a convenient neutral position. Rope/Cable must be ordered separately.

- Stamped carbon steel frames
- Zinc-coated finishes
- Full length drum bearings

FULTON

F2 2000 Lb Capacity Trailer Winch

Soft grip ergonomic handle adjusts from 6"-9," balances torque, speed, and clearance. Switches from left- to right-handed drive configuration with ease. Installs quickly by allowing user to drop in carriage bolts from outside the unit and apply lock ring. Bolts can be adjusted to fit winch stand, and nuts can be tightened from underneath. Fits industry standard mounting pattern. User-friendly pull and turn knob engages pawl easily and eliminates exposed spring.

- Completely enclosed design provides sleek and stylish look
- Dual gear drum operates smoothly
- Handle switches from left-to-right handed drive configuration
- Includes all mounting hardware
