KIDDER

Men's Neoprene "Flex-Fit" Vest Series

A Flex-Fit insert provides an improved fit. The special Flex-Fit material is constructed of FUA fabric that stretches like spandex. We then carried the FUA material into the complete inner panels which provides a soft surface that gently slides against your skin. The outer fabric is constructed from 1.5mm neoprene for durability. This vest is specifically manufactured to the highest of standards as a Type III personal flotation device. Heavy duty zipper closure and two 1-1/2" belt/buckle design provide a secure fit. Wide arm holes offer freedom of movement.

- PVC foam construction
- U.S. Coast Guard Approved Type III
