ORDER NO.	PRICE
STN CPV350	\$1289.25

**FF520 Black Box Sounder**

Introducing the digital FF520 with Xducer ID, a new technology that self-tunes the fish finder settings regardless of the conditions under your boat. And with an optional transducer, you've got 500 or 1000 watts (at 50 or 200kHz) of fishing power to help you stay at the top of the food chain.

ORDER NO.	DESCRIPTION	PRICE
STN FF520	Black Box Sounder	\$316.49
STN DST520	Nylon Thru Hull Transducer	\$99.99
STN DST521	Nylon Transom Mt. Transducer	\$139.99

**CP180 WAAS GPS Chart Plotter**

5 inch color sunlight viewable C-Map MAX compatible WAAS GPS Chart Plotter with Swivel mount bracket

The CP180 (with external GPS antenna) is a precision-crafted GPS chart plotter with high-performance receiver for the Global Positioning System (WAAS GPS) constellation of satellites, providing precise location data with a host of navigation features. Ideal for nautical use and sealed against water ingress. The GPS chart plotter is housed in a rugged, impact-resistant case with outstanding ergonomic design, for effortless operation.

The advanced features of the GPS chart plotter include:

- Direct sunlight viewable color LCD display
- Capable of using the Optional FF520 50/200kHz Black Box Fish Finder
- C-MAP NT+/MAX cartography compatible
- Improved Worldwide background showing detail up to 2.0 NM
- 600 Waypoints (Marks) / 20 Routes storage
- User selectable data fields
- NMEA Data pages
- 3 NMEA Outputs and 2 Inputs
- Connections to and from STANDARD HORIZON DSC VHF's for Distress and Position Request calls
