

KOELLER

- Manufactured with high-impact, seamless, double-walled construction that withstands sitting, standing, and environmental punishments, these portable coolers give you industrial strength cooling and storage where you need it.
- Exclusive molded polymer incorporates homogenous UV stabilized color throughout to ensure a constant, high, steadfast white.
- Resilient, FDA approved polyethylene won't absorb or transfer odors; no more "fishy" smells to worry about.
- Each lid seal undergoes a stringent, twenty-four hour pressure fitting process to ensure the most solid and individually conforming seal possible.
- Cooler lid reduces heat leakage, staying securely closed with our long-lasting easy grip latches.
- Features corrosive resistant, stainless steel hinges to withstand the elements.
- Functional, full length scale built directly into cooler lid helps you measure the one that- didn't-get-away.
- Stout rope handles allow for easier toting without taking up a lot of extra boat space.
- Dual drains are standard for simpler, hassle free cleaning.
- Specially formed insulating foam is a moisture resistant, thick-celled latticework that keeps the inside temperature where you need it: warm or cold.

Ice Chests
