

476 FENDERS AND MOORING

Hull Gard® Inflatable Vinyl Dock Wheels

Hull-Gard® Dock Wheel Fenders are designed to protect your boat from damage caused from hitting dock corners and edges. Offered in two styles -- one with a heavy duty galvanized steel base designed for mounting on dock, corners and another with a straight heavy duty galvanized steel base for mounting along dock edges. Pre-drilled holes are provided for easy installation with bolts or screws. Both are fitted with a spindle which holds the fender in place while it rotates with the movement of your boat. Designed with ribs for easy rolling action, the vinyl dock wheel can be inflated to the firmness you desire.

Flat Fender

Polyester textile encasement and foam cushion, not standard air-filled vinyl.

- Will not deteriorate in the sun!
- Clean easily with liquid soap--no harsh chemicals.
- Great for narrow slips.
- Won't roll or ride up the hull like conventional fenders can.
- Contains higher density foam for maximum protection in a compact size. Will never burst. Easily stowed.
