Jerry Can Fuel Containers

Designed to meet the new CARB portable fuel container spillage and emissions regulations. The cans are treated with Dupont SELAR to reduce vapor permeation through the walls of the can by up to 75%. They also use a self-venting, self-regulating spout that negates the requirement for a separate vent hole.

RAC RFF1C	2.7 GPM	\$26.40
RAC RFF3C	3.9 GPM	\$31.10
RAC RFF8C	5 GPM	\$46.65
RAC RFF15C	12-15 GPM	\$86.40

Fuel Filter Funnel Your Tool For Pure Fuel

Filters gasoline, diesel, heating oil, kerosene and 2-cycle mixed gas. All in a convenient, affordable design which never needs any replacement parts.

Removes Water From Fuel!

When fuel is poured through the Fuel Filter Funnel, water, dirt and debris will not pass through the filter's fluoropolymer-coated stainless steel filter. Only filtered fuel flows through to your engine, improving its efficiency, durability, and proper operation. The sump area collects the deflected water and debris for easy cleaning and disposal.

SIF3C - Original Fuel Filter Funnel

Use for personal watercraft, lawn care, and recreational vehicles.

SIF8C - Deluxe Fuel Filter Funnel

Ideal for small to midsize boats and industrial equipment.

SIF15C - Pro Fuel Filter Funnel

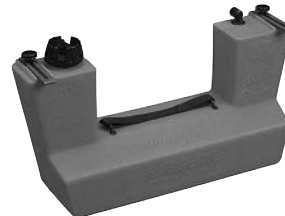

This funnel will keep up with the standard fuel pump. Great for large fuel transfers.
