WATERPROOF MARINE AUDIO

ME-400 Marine Amplifier

The ME-400 Four Channel, marine grade amplifier provides 400 watts of crisp, clean audio power. Both crossover circuits and high pass and low pass filters are fully adjustable so you can power your subwoofer as well as your standard speakers.

Gold plated connections resist corrosion. Built from the ground up to withstand the rigors of the marine environment, the ME-400 will be an outstanding addition to your vessel's audio system.

FEATURES

- 2 ohm stable stereo outputs
- Bridgeable outputs
- Variable input level controls for each pair of channels
- Variable High-pass, Low-pass and All-pass crossover.
- Variable Bass Boost circuit
- Thermal and overload protection circuitry
- Gold-plated RCA jacks and terminals

WATERPROOF MARINE AUDIO

MS-55 Compact Box Subwoofer

The MS-55 subwoofer is a compact, high efficiency bass enclosure optimized for marine applications. It's small size enables it to be easily mounted below seats, under the gunwale area, behind the instrument panel, or any convenient location. The MS-55 is a self contained bass unit requiring no cutting of panels or holes in the boat interior. It produces solid, deep bass extending down to 40Hz and is the perfect addition to any audio system. Dimensions - 8.85" W x 11.8" L x 4.75" H

Features:

- Dual Voicecoil, high-excursion, 5.25" woofer
- High density, UV stable enclosure
- Water resistant
- Bass-reflex, high-efficiency acoustic design
- Side vented output ports
- Compact size and molded-in mounts provide for convenient installation nearly anywhere.
- Acoustically matched for use with Poly-Planar ME-51, MZ-100 and ME-400 amplifiers or can be used with any amplifier 25 - 100 watts.
