WOODY WAX CPR System Kit

The CPR Kit includes everything you need to restore and protect your anodized aluminum, stainless, and chrome from corrosion, saltwater, sun-light, oxidation, and pollution for six months - GUARANTEED! Woody Wax is the first part of the system which breaks down corrosion and hard water spots, removes oxidation and brightens dulled metal. Simply wipe it on the metal and let it work - no buffing is required. This corrosion blocking wax can be used by itself for the protection of metals without leaving a sticky or slippery feel while lasting for approximately two months. For the restoration of heavily pitted metal, a bronze wool pad is included. (This wool will not harm anodized finishes). The Woody Wax Metal Wax Sealant is the second part of the system which places a shell of hard wax over a strong corrosion blocking film, creating a perfectly safe environment for the metal. This system will create incredible depth, shine, and protection that will last for half a year or longer, saving you time, money and most importantly your metal!

Kits include: 8 oz. or 16 oz. Woody Wax, 8 oz Sealant, Applicator and Bronze Wool Pad.

Rated #1 by Power Boat Reports and Practical Sailor

Woody Wax Kit

Woody Wax

ORDER NO.	DESCRIPTION	PRICE
WDY WWK8	8 oz. kit	\$43.25
WDY WWK16	16 oz. kit	\$50.95
