

AQUAGARD AQUAGARD® II for Aluminum Hulls – Alumi-Koat

A tin free water based paint specifically designed for coating aluminum hulls. It is environmental and customer friendly. No harmful fumes. It reduces VOC emissions during application, and reduces the risk of toxic solvent exposure to the user. After application the boat can be launched after 24 hours or any time up to 12 months. When boat is removed from water, paint will de-activate during storage and re-activate when replaced in water. Easy application and cleans up with water. Fortified with Bio-Shield™.

AQUAGARD

Waterbase Antifouling Boat Bottom Paint

A fast drying, abrasive Waterbase Antifouling bottom boat paint that can easily be cleaned up with soap and water. It is EPA registered and environmentally responsible. May be used over previously painted fiberglass or wooden boats without the need of a primer, provided the surfaces are prepared properly.

- Can be applied indoors to bottom of boats
- Coverage approximately 400 sq. ft./gallon
- Can be burnished
- Painted boats can be stored up to 12 months before launching
